## INVENTORY MANAGEMENT PROGRAMS

Inventory costs you a lot. American can help you manage those costs. Our extensive **inventory management programs** are designed to ensure you have the lumber you need when and where you need it without having to carry extra inventory.

Let us help you simplify your inventory management issues with one or all of our proven inventory management programs.

### **MIXED ORDER DELIVERIES**

Predefined weekly or monthly lumber deliveries designed to control your inventory costs. Mix species, grades, thicknesses, and lengths based on what you have recently used and order only what you need to replenish your ideal inventory levels.

### **PLANNED BOOKINGS**

When high volumes of lumber are required for extended periods of time, we will guarantee and automatically send an agreed upon quantity of lumber at set intervals to ease your cash flow burdens while still securing lumber.

### **PRIORITY PICK-UPS**

Tailor a loading / unloading plan that gets your drivers back on the road quickly. Ensure your drivers receive preferential treatment when they arrive at the yard by preplanning dates and times directly with our yard personnel prior to arrival.

### **STANDING APPOINTMENTS**

Control how and when you will replenish your inventory by scheduling regular ongoing pick-ups times that work for you. We'll be ready with the lumber you need when you arrive each and every time!

### **CUSTOMER MANAGED INVENTORY**

When you don't know exactly what you will need, but know you'll need it fast let us help you ensure you have it on hand. We will customize a program that warehouses volumes of lumber in your location and lets you pay for it as you use.

### **SMALL ORDER QUANTITY PROGRAMS**

If you only need a few hundred board feet of a few different species at one time we'll help you get what you need on a timely basis. No need to order full units of each, we'll package a load of several different products to prevent you from storing lumber you don't need and improve your cash flow.

### **EXPORT SOURCING PROGRAMS**

For customers outside North America, simplify your hardwood lumber purchasing practices and trust us to be your single source for all your lumber purchasing needs. If we don't have it, we will find it for you!

### **CUSTOMIZED REPORTING**

Clear insight of species and volumes of lumber available is critical to proper inventory management. We customize reports based on your specific needs to best integrate with your processes and systems helping you make better business decisions.
